THE RAW ENERGY AND IMAGINATION
OF THE EVERYDAY

Volksrekorders is an artists initiative based in Rotterdam (NL) with a special focus on the individual experience of the public domain. We are a group of 9 artists, from different approaches of artistic expression: sculpture, painting, writing, photography and graphic design. But when joining forces as Volksrekorders, we translate our individual investigations, in relation to the larger public sphere, into numerous short films. These short films converge into a series of episodes that we broadcast via the Internet TV platform 'volksrekorders.com'.

VOLKSREKORDERS.COM
